

EXPRESS ROBBERY.

Trusted Employees of the Pacific and U S Express Companies Suspected.

\$110,000 MAY HAVE BEEN STOLEN.

George W. Ross, the Missing Money Clerk Located in St. Louis—Evidence Against Him Conclusive—Other Suspects Nebraska Vote.

Kansas City, Nov. 27.—George W. Ross, the missing money clerk of the Pacific and United States Express companies, has been located in St. Louis. He has not yet been arrested, because the companies say they are implicated. Last Sunday a money package containing \$110,000 was stolen. It is already known that \$2800 of this is missing. It is now feared the whole \$110,000 may never reach its destination.

Denial from St. Louis. St. Louis, Nov. 27.—Officials of United States Pacific Express company here deny the statement from Kansas City that George W. Ross, missing money clerk of the company of that city has been located here in St. Louis.

ILLINOIS ROBBERS' DEN RAIDED.

Faster Police Believe They Have a Pair of Counterfeiters.

Canon, Ill. Nov. 27.—Frank Quakenbush and Albert Quakenbush, who reside on a farm a short distance south of Canon were arrested last night on the charge of robbery. Upon searching their premises the officers discovered in an old shed a large quantity of plunder which had been stolen from stores in Canon, St. David and other towns in Fulton county. The arrested men had in their possession a complete set of tools and drills for opening safes. The officers also found molds for counterfeiting silver dollars, some of the mold out of which the spurious coins were made and a few of the counterfeit pieces of money.

ACQUITTED CHARGE OF MURDER.

Jury Returns Verdict in the Case of the Death of Mrs. Jones.

Carthage, Ill. Nov. 27.—Possibly nothing in this community has been so thoroughly and completely gossiped about as the supposed murder of Mrs. Jones more than a year ago. Deceased was a young girl employed as chambermaid in the Evans hotel in this city. On Dec. 13, 1895 she took sick and died the 18th of that month. Dr. Veatch had waited on her. Charles Stapp was her lover and he and Will Carter were her sole and only visitors in her sickness. A crime was suspected. Circumstances pointed to the guilt of the three who had waited on her. They were arrested and indicted. Public feeling ran high, but a jury declared their innocence this morning by a verdict of not guilty.

Dr. Veatch is a respectable and successful practitioner of forty years' experience and all three are members of families who stand above reproach.

Floods in the East.

Athens, Nov. 27.—Immense damage has been caused by storms. Floods have inundated the lower quarter of the city and citizens, drowning a number of people. Digging works at the latter place. Many houses were destroyed, tents, sheltering the Armenian refugees whose houses were swept away. There is great distress. The sailors of the foreign war ship assisted all night in the work of rescue.

The Hamburg Strike.

Hamburg, Nov. 27.—The ship owners and port authorities have decided to join the Hamburg federation, an order to prevent national opposition to the strikers. The 14 and 16 American companies lighters and ship chandlers have joined the strike. Eleven thousand men are now out.

Portugal Wins Wheat.

Lisbon, Nov. 27.—The government of Portugal has decided the importation of wheat from the United States to supplement the deficiency in the national supply.

The Weather.

Nov. 27.—Colder tonight; snow falling south, air north; Saturday, and generally fair, brisk westerly winds.

Royal Child Born.

Rio Nov. 27.—Prince Henry of Prussia has given birth to a son.

FOOT BALL GAMES.

Great Contests on Thanksgiving Day—Results.

Chicago, Nov. 27.—Foot ball was the great sport on Thanksgiving. Results—Chicago University 7, Ann Arbor team 0.

Chicago Athletic Association 12, Boston Eleven 0.

Northwestern Eleven 6, Wisconsin Eleven 0.

At Omaha—Nebraska 0, Iowa 0.

At South Bend—Commercial Club 10, Chicago Dental Club 10.

At Elgin—Elgin 0, Englewood 0.

At Notre Dame—Notre Dame 8, Beloit 0.

At Peoria—Peoria High School 10, Champaign High School 0.

At Pekin—Eureka College 16, Illinois College 4.

Dead and Injured.

Rue, William, Brooklyn, knocked down and instantly killed during a rush of two teams.

Anderson, Thomas, Jacksonville, badly bruised in a free-for-all fight.

Bergeron, —, Cleveland, torn, collar bone broken.

Coffeen, Frank, Lafayette, Ind., arms and legs bruised by being jumped on by eight men.

Coy, Harry, half back of the University of Chicago team; shoulders dislocated.

Clancy, —, Chicago, badly bruised in the game at Detroit, Mich.

Davis, Benjamin R., South Chicago; body badly crushed; will probably die.

Graham, Edward, Boston, right leg dislocated in game with Athletic club.

Hinkley, —, captain of the Beloit team; kicked in the small of the back; left arm badly bruised.

Hooper, James, South Bend, lungs knocked out of place for a short time; not serious.

Hottobkies, W. S., Mafayr, knocked down and trampled on during Evanson game; arm broken and injured internally.

Johnson, Andrew, arms and back carved by James Black in a dispute over the umpire's decision at Greentown, Ia.

Johnson, Sol, Pekin, both eyes blackened, nose broken and toes smashed.

Kennedy, Robert, New Orleans, jumped on and ridden over; will die.

Lewis, Ray, Wheaton, N. D., left eye gouged out and left hip broken.

Lewis, —, captain of the Racine team, struck in the breast and stomach and carried from the field.

Marrow, T. O., Deedwood, S. D., left ear torn off.

O'Malley, M., Grand Port, Wash., both ears torn off.

Novill, —, center of Riverside Athletic team, right ankle broken.

Stocker, Thomas, Scranton, Pa., part of scalp torn off.

Tucker, —, full back for the Missouri team, head badly hurt during Kansas City game, taken to hospital.

Upp, C. T., Toledo, crushed about the body in a game with the Michigan freshmen.

Werner, Sam, Akron team, shoulder blade fractured and body bruised.

Whitney, —, right end for Kansas team, hurt in the stomach during the Kansas City game; taken to hospital.

White, Fred, Pekin, knocked senseless while making a rush.

Whitecomb, Herbert, San Francisco, swallowed set of false teeth during the excitement of play.

Woolly, Frank, Tower, Minn., hit over the head with a brick thrown by an Indian; scalp badly cut.

The injured expect to be in shape to play again next Thanksgiving.

Killed in a Saloon Row.

Durham, Pa., Nov. 27.—Early this morning about twenty five Polish drinking in a saloon. A drunken quarrel arose and promiscuous shooting followed. James Motzley was shot and killed; John Butts and another man whose name is unknown are fatally wounded. The names of the shooters are unknown. No arrests.

Texas Cyclone.

Waco, Texas, Nov. 27.—A cyclone a few miles from here yesterday devastated a strip a mile wide and eight miles long. The earth was literally swept bare of grass and a number of farm houses were demolished. Five persons were more or less injured. So far as heard from one child was killed.

Cold in Oregon.

Portland, Ore., Nov. 27.—It was 21 degrees above zero here last night. This makes the coldest time of the year for a quarter of a century. It is also very cold in eastern Oregon. In the Blue Mountains it is fifteen below. Much damage to fall grain and ungathered potato crop is feared.

LADY SCOTT LIBEL.

The Trial in London was Continued.

To-Day, Earl Russell Testifying.

"I LOVE YOU JUST THE SAME"

Says Lady Scott in a Letter to the Earl—Lady Scott Conspired to Catch a Rich American.

London, Nov. 27.—The libel suit against Lady Scott, brought by her son-in-law, Earl Russell, was continued today. The earl testified that before his marriage to her daughter, he told her about his "wild oats" letter from her to the earl which was then read, as follows: "I want you always to trust me. I am thankful I know everything. I love you just the same." St. George La Fox, cousin of Earl Russell, testified that he warned the earl not to marry Miss Scott, as from inquiries he had made, he considered Lady Scott "a woman of infamous reputation." A bookseller named Carver testified that a certain "Masseuse" introduced Lady Scott to him as her sister. He said the libels complained of were printed and distributed on Lady Scott's orders. He produced a letter from Lady Scott asking him to find a rich American to help pay the expenses of this work with a view to marriage. She said she had plenty of good offers, but must have riches. The libelous documents were mailed from a list in her hand writing to every paper in London, some in Paris, to the colonels regiment of foot guards, New York and California, clubs, managers of theatres, members of parliament and various municipal and educational authorities and numerous private individuals.

SEEK DISCHARGED REPUBLICANS.

Want "Ad" Asks for Evidence of the Hypocrisy of Grover Cleveland.

New York, Nov. 27.—Some New York Republicans do not seem to like the federal civil service law, or rather, the way President Cleveland is enforcing it. This advertisement appears in a morning paper.

"Wanted—Republicans discharged from the federal service since March 4, 1893, to give names, addresses, and character of place held, and reasons given for discharge."

It was signed by Col. Alex. Gruber, an active Republican, who said: "My object in publishing this advertisement is to collect evidence showing the hypocrisy and inconsistency of the administration of one Grover Cleveland. The idea is to expose Mr. Cleveland's attitude toward the civil service law and to start an agitation that will result in some modification of the existing law."

IOWA GOLD DEMOCRATS.

They Meet and Unanimously Decide to Keep Up the Fight.

Des Moines, Nov. 27.—The gold standard Democrats met here today to make plans for the future. Forty representative men were present. They were unanimous in their opinion that the organization must be kept up. They say the fight is on and must be maintained to the finish and they will offer no compromise to the silver Democrats, but think the Bryan party will not be able to hold together in its various elements. W. J. Mullen will be continued chairman and will direct the affairs from Cedar Rapids. Some minor changes will be made but the main object of the conference is to secure a general understanding among the gold Democrats to stand together and keep up the separate organizations.

Harrison for the British Mission.

Washington, Nov. 27.—If ex-President Harrison re-enters public life during the McKinley administration it will be in the capacity of ambassador to Great Britain. The ex-president is said to feel no inclination for cabinet service. Mr. McKinley understands this, and is proceeding with his selections from a list which does not include the name of Benjamin Harrison. The British mission, it is reported from Canton, will be held open for General Harrison and will be gladly bestowed if he decides to accept.

Agitator Arrested.

Hamburg, Nov. 27.—Tom Mann, the well known English labor leader, and prime mover on the proposed universal dockers' strike, was arrested at Rims-bretta today charged with inciting disorders. He will be deported to England with caution not to return.

Shah Will Dismiss a Premier.

Tehran, Nov. 27.—The shah announces he will dismiss the premier and will appoint in person over his cabinet of twelve ministers.

DIED OF A BROKEN HEART.

Had Case of Anna B. Clarke, Who Was Threatened with Blindness.

Chicago, Nov. 27.—Anna B. Clarke died of a broken heart; actually and physically, a broken heart. She died suddenly in Chicago a week ago Monday, and her remains were taken to her Cleveland home for interment. From that city comes the information that a physician examining the body asked if Miss Clarke had recently suffered any sudden and great sorrow or a shock. He was told that she had been informed that total blindness was near and inevitable. The physician said that there was a heart lesion, and that one of the few authentic recorded deaths from a heart broken by sorrow was hers. There is not a lawyer's office in Chicago where Anna B. Clarke was not known. She was an almost weekly visitor at the law offices in the big office buildings, coming and going so quietly that her presence was barely felt. For many years this busy little woman had an office in the Methodist church block. She sold law stationery, not peddling it, but taking orders for it from people who for years had never known any other means of securing their supplies. Two weeks ago Miss Clarke went the daily round of her duties, and then, owing to some slight trouble, as she supposed, with her eyesight, she visited an oculist. He told her that the loss of her sight might be the question of but a few hours. This was Saturday. Sunday afternoon Miss Clarke returned to her residence from her walk. She entered the door, and some one spoke to her. She turned and said, "I hear your voice, but I cannot see you."

Her own voice was a bit broken as she spoke, but the significance of what she said was not felt by those about her. The next morning she was dead.

TEARS UP MONEY ON STREETS.

Man from Marie, Ill., Destroys the World's Near and That He Has No Use for His Currency.

Hamilton, Ohio, Nov. 27.—John Bochl of Marie, Ill., stopping temporarily in this city, created a scene on the streets yesterday afternoon by destroying a \$10, \$20 and \$100 bill.

He stopped several persons, saying the world was coming to an end at 2 o'clock, and that he would have no further use for money. An effort was made to prevent him from destroying the currency, but to no avail.

The police, after a fierce struggle, succeeded in taking the insane man to the station house.

HOMICIDE AT LATHAM.

George Kitten, a Married Man, Fatally Shot by Benj. Huston.

Springfield, Ill., Nov. 27.—George Kitten, aged 35, married, was fatally shot at the depot at Latham, Logan county, late Wednesday night by Benjamin Huston, son of Charles Huston, a wealthy and prominent farmer. Huston was arrested and confessed Huston was reprimanded by Kitten half an hour earlier at a dance for using objectionable language before ladies.

Boy Pyromaniac.

Little Rock, Ark., Nov. 27.—W. H. Stahmer, a 15 year-old boy, was arrested yesterday on the charge of attempting to burn the residence of Mrs. C. L. Weaver, his grandmother. He made a full confession last night. The only reason appears to have been his desire to leave his grandmother's roof, and he thought the only sure way of accomplishing that end was to burn the house over her head. He went about the deed in the most deliberate manner, carefully piling the inflammable articles by the side of the house and saturating them with kerosene. He then tore a plank from the fence separating the house from the adjoining property, and stepped through the opening, leaving tracks as though made by some one leaving the house. He then went inside, after the fire was under headway, and remarked to his grandmother that he heard something cracking. She thought it was a burglar, and went out to investigate, when she discovered the fire, and gave the alarm. The family came to Little Rock from Springfield, Ill.

Great Strike Contemplated.

London, Nov. 27.—At the office of the Federation of the Ship, Dock and River side workers, an organization which directly appeals to over a million of men, a representative of the associated press was informed that replies were received from over half of the circulars sent to similar organizations throughout the world last summer looking to a general strike in all the countries at a signal given. Officials in charge added that circulars had been sent to dockers in Great Britain asking them if they think an immediate universal strike advisable, and said there is no doubt that such a strike will soon be ordered. McHugh sent to the United States sound dockers of that country and Canada, have been sending glowing letters describing the success of its mission. He says the men there are thorough in sympathy with the idea of a federation.

CHANGED HIS MIND.

St. Louis Man Leaves Word That He Contemplated Suicide—Unexpectedly Returned to His Family.

Chief Clerk Schlott, of Jefferson Barracks, Who Didn't Commit Suicide Tries to Explain His Queer Conduct to Friends.

St. Louis, Mo., Nov. 27.—C. H. Schlott, chief clerk in the quartermaster's department at Jefferson Barracks, who disappeared from his stopping place, 7317 South Broadway, last Monday morning, has again appeared on the scene. He made his entrance in a decidedly quiet and unobtrusive manner last night at 6:30 o'clock, and when seen by a Globe-Democrat reporter was again enjoying the comforts of life in the bosom of his family.

Mr. Schlott left letters saying that he intended to commit suicide, and over since he so mysteriously disappeared his friends at the barracks have been making every effort to locate his body, so that his wife might be able to secure the insurance he carried on his life. Now that he has come back his wife is out \$2000 but ahead by a husband.

Mr. Schlott had little explanation to give of his disappearance. He was voluble, but the substance of his explanation amounted to the fact that he had gone away and come back. He seemed in good spirits and health, although he walked the floor incessantly during the conversation.

"I went away—well because—you may say that I was not able to control my common sense," he said.

"Mental aberration," suggested Mrs. Schlott.

"No, it was not that," said Mr. Schlott. "It was not because I was dazed either, nor was it about a woman. Whisky had nothing to do with it. I sometimes take a drink, but I am like a German drinker—I drink at regular times and very seldom too much. Yes, I remember where I was most of the time. I was in St. Louis and East St. Louis, and the police could not have wanted to find me very much, for they ran across me several times, once on the Eads bridge and again at the Union depot, that I remember distinctly."

When pressed for an answer as to why he wrote such alarming letters, and why after disappearing with the avowed intention of committing suicide he changed his mind, Mr. Schlott would give a shake of his head or burst into a flow of words that really told nothing. "Why?" he said "Why, there are many things I do not wish to tell the public. I wrote those letters because I really thought I would not be here, but you see I am. I will tell a few of my intimate friends to whom I owe an apology, but to the others, nothing. It shall remain locked up here," and he tapped his forehead significantly.

Mr. Schlott talked like a man who has done something very foolish and is exceedingly sorry for it, and Mrs. Schlott smiled now and then as if she could tell why her husband had vanished like the bascule fabric of an unsubstantial dream if she would, but she would not. Mr. Schlott ventured the information once during the conversation that he worried excessively over money matters, even though the amount was small, but denied that he "disappeared" on that account.

According to Mr. Schlott, the situation may be summed up thus "I disappeared for reasons of my own, and returned when I decided that it was best." And there you are.

Thought of the Poor.

The children of the Marlett and Oakland schools remembered the poor on Thanksgiving and all of the contributions were taken to the Anna B. Millikin Home. There was a wagon load of provisions, etc., at the Marlett street school, and the Oakland school gave a big lot of good things, including a turkey weighing twenty-two pounds. Mrs. Ackerman's kindergarten pupils contributed liberally. Mr. and Mrs. W. F. Busher personally superintended the delivery of the articles which were accepted at the home with many expressions of gratitude.

Rebellion Rampant.

Paris, Nov. 27.—Advises from the Euphrates river is to the effect that the rebellion in Madagascar is rampant. Trade is paralyzed.

Another Story About Weyler.

Madrid, Nov. 27.—Captain General Weyler, is announced will return to Pinar del Rio immediately to resume command operations against Mautu.

TELEPHONE CO. MEETING.

Statement of the Opposition in Answer to a Newspaper Story.

In the morning papers appeared statements about the meeting of stockholders of the Citizens' Mutual Telephone company held last night. It is claimed that the story contained glaring misstatements.

The Opposition Co. Side. Referring to the affairs of the new company one of the officers says: "The opposition or Citizens' Mutual Telephone company of Decatur, like a good many other institutions run largely for the citizens of Decatur, has its up and downs. For the last fifteen months the plant has been running smoothly and making money for itself as well as saving about \$3 per month for each and every subscriber of a telephone, amounting to at least \$3000 per month. All went smoothly until about the last ten days, when Mr. Lewis and Mr. Moore, (Mr. Lewis being a director and knowing the ins and outs of the company,) started to buying in a controlling interest in the stock for some unknown party. This party proved to be a Mr. Hopkins of Saginaw, Mich., who succeeded in getting about 3500 shares. His stock was duly transferred to him, having one share transferred to Mr. Lewis and one to Mr. Moore that they might still continue as officers of the company, and as last night was the regular meeting of the stockholders for the election of officers, all hands were on hand with their stock. Mr. Hopkins, of Michigan, representing about 3500 and the minority or people of Decatur about 3000 shares. All preparations had been made to proceed with the election and nominations were duly made; and nominations closed to elect two directors, to fill the places of G. W. Scovill and Mr. Spelman whose time had expired. Then came the hitch in the proceedings. The minority had counseled their attorneys who assure them that we have a right to vote for directors and managers on what is known as the cumulative plan, which allows the stockholder to vote two votes for each share where there are two directors to be elected. That was held by the chair as being the legal way to proceed with the election and after some little discussion and causing among the majority stockholders they withdrew and left the remainder without a quorum, which left them nothing to do but adjourn. This leaves the old officers of the company in charge the same as before the meeting, with nothing to do but work and keep the price of telephone down.

"As to the injunction referred to in the Herald Dispatch, that was entirely a scare on the part of the new stockholder. There was no call for it. It was not the intention at that time to issue one dollar's worth of the treasury stock."

"This company has in the last five quarters paid all of its running expense and paid over \$2000 of its bonded indebtedness. The bonded indebtedness of the company in August, 1896, was \$8000. Since that time by careful and economical management the company has brought and cancelled three \$500 bonds and there is now more than enough cash in the sinking fund at the Citizens' National bank to take up another bond and pay every cent of outstanding obligations."

At the Grand Sunday Night.

There are few organizations in the country which have won the fame in so short a time as the Royal Hungarian Court orchestra which comes to the Grand on next Sunday evening. The orchestra numbers twelve very talented musicians, natives of Hungary, and is under the direction of Mr. P. K. Matus, for many years one of the foremost soloists in Glimore's band and considered to be the best E flat clarinet player in the world. The Royal Hungarian Court orchestra has played at half the courts in Europe notably before Queen Victoria at Windsor castle, and more recently before Emperor Francis Joseph in Vienna. This is its first American tour under the management of A. W. Rasmussen. Mr. Matus, besides playing the clarinet divinely, as one New York paper said recently, is an excellent conductor and has composed a grand deal of beautiful music of the Hungarian order. Miss Laura Matus, a young woman of great beauty and possessing, according to the New York Times, "a magnificent soprano voice," will also sing a number of choice selections at the coming concert, for which a varied and popular program has been arranged.

Mrs. Catherine Lipp, of Lincoln, showed rare presence of mind when burning some brush last week in the yard. Her dress caught fire in the back. She at once laid down on the ground and rolled over and over at the same time attempting to put out the blaze with her hands. She escaped with little clothing left, and with a severely burned hand.

Mrs. Jessie Havermale, of Canton, has presented Joe Hooker post, G. A. R., with a bottle of water which she secured from the historic spring on the Shiloh battle field.

## Daily Republican

B. K. HAMSHER & W. F. CALHOUN,  
HAMSHER & CALHOUN, Prop. rs.  
DECATUR, ILLINOIS.

Entered as second class mail matter  
at Decatur, Ill., Sept. 15, 1893.

TERMS OF SUBSCRIPTION.  
By mail, postage paid, one year, \$5.00.

Delivered by carrier to any part of city  
For week, 10 cents; Yearly, in advance, \$5.00.  
Postal card requests, or orders through tele-  
phone No. 42, will secure early attention of car-  
riers in any district.

Address THE EVENING REPUBLICAN, 135  
South Water street, Decatur, Illinois.

FRIDAY, NOVEMBER 27, 1896.

There will probably be an extra session  
of the new congress, soon after the 4th of  
March, to pass a revenue measure.

Who says "silver and wheat" now? Limited  
supply supplemented by curtailed  
consumption of wheat has caused a rise in the  
price of wheat while the increasing  
supply of silver above the general demand  
keeps the price of silver down or on the  
decline.

Bryan has an impression that the business  
men of the country have not read the  
arguments of the free silver men. It may be  
that the people who gathered in the  
parks day by day to argue free silver are  
the readers of the country, but there is an  
impression abroad, and an expression at  
the ballot box, to the effect that the business  
people have read all that Bryan, the  
best, has said on the subject.

W. J. Bryan proposes to undertake the  
task of educating the business men of the  
country into the support of the free coinage  
of silver at the ratio of 16 to 1 a pol-  
icy which Teller says "will not produce  
immediate relief but inside of twenty  
years will result in establishing a finan-  
cial system that will give universal pros-  
perity to all who faithfully labor. Bryan  
will find that business men will not suffer  
themselves to be victimized by assump-  
tions touching a policy that promises no  
return for twenty years.

More men have been deceived by belief  
than have ever gone wrong by reason.  
Belief changes no relations, it changes no  
object. The belief that the world was  
flat never changed the shape of the globe.  
Men lived and died in that belief but that  
is all there is of it. The human family  
once generally believed in witches but  
that belief never produced a witch. Men  
may believe in Bryan and free silver.  
They may believe that the free coinage of  
silver at 16 to 1 would produce a parity  
between gold and silver but that belief  
will not make Bryan a statesman or  
change the fixed laws of business that  
nothing can add value to a commodity  
but labor supplemented by the demand  
for and the supply of that commodity.  
Men trained in business do not do busi-  
ness on belief but along practical lines  
and Bryan and James may flood the offices  
of business men with free silver literature  
until 1908 and they will fail to make any  
converts to a dogmatic belief in a delu-  
sion.

## Some "It's" of Politics.

St. Louis Globe-Democrat Oddly  
enough, Senator Hoar is perturbed by a  
piece of recent Popocratic imbecility  
which has been floating about "It is  
said," remarks the Massachusetts states-  
man, "that while McKinley has 1,000-  
000 plurality, a change of 27,000 votes  
would give the election to his opponent.  
It is said to contemplate this." Unques-  
tionably it is "said to contemplate" that  
there were so many Popocrats in the  
country three weeks ago that they were  
beaten by only 800,000 or thereabouts on  
the popular vote. All sorts of evil are said  
to contemplate, especially in this joyous  
holiday season. This particular por-  
cel and country is one in which "every por-  
cel please and only man is vile."

But the vileness is not quite as exten-  
sive as some persons think it is. If the  
Popocratic sheet which started this  
"change of 27,000 votes" stilliness had  
gone over the election returns a little far-  
ther it would have found that a change  
of between 30,000 and 35,000 votes divid-  
ed up in the right states and in the right  
way would have given sixty more elec-  
toral votes to McKinley than he has,  
which would have made his total 332 and  
out Bryan's to 116. This would not have  
altered McKinley's popular plurality mat-  
erially, but it would have made his ma-  
jority in the electoral college much more  
impressive. Probably among the multi-  
tude of reformed ex popas there are many  
thousands who now wish McKinley's  
electoral vote reached this figure, or went  
above it, but the wish accomplishes noth-  
ing. However, the majority is enough.  
It will serve.

Let us follow up this Popocratic meth-  
od of reversing elections a little farther.  
Lincoln received 212 electoral votes in  
1864, and McClellan only twenty-one, yet  
Lincoln's majority in the popular vote,  
exclusive of the soldier's poll, was only  
about 300,000. It was but 25,000, for ex-  
ample, in Pennsylvania, and 7000 in New  
York. A "change" of only a few thou-  
sand votes in certain states and in a cer-  
tain way would have upset Lincoln's tri-  
umphant preponderance in the electoral  
college and have made McClellan presi-  
dent. In 1859 the Whigs carried only  
four states out of the thirty one, and had  
only forty-two electoral votes, as compared  
with 234 for the Democrats, but the  
Democratic lead in the popular vote was  
but a little more than 200,000. A  
"change" of a few thousand votes in a  
small number of states would have made  
Scott president instead of Pierce and have  
altered the current of the country's his-

tory. Nevertheless, the defeat for Scott's  
party was final, for the Whigs never  
"lined up" again in a presidential can-  
vass. The number and variety of the  
"it's" of politics are virtually infinite.  
What startling differences there would  
have been in American history "if" cer-  
tain events which form part of our annals  
had chanced to go the other way! "If"  
a comparatively small number of votes  
had been transferred from one side to the  
other in certain spots in the different elec-  
tions every man who was ever chosen  
president would have been beaten except  
George Washington and (in 1820) James  
Monroe.

## SPONSORER AND THE JURY.

Complete Identification—Verdict at the In-  
quest on the Body of James Miller.

Wednesday evening shortly after seven  
o'clock the coroner's jury concluded the  
inquest on the body of the late Rev.  
James Miller and a verdict of suicide was  
the finding.

The jury and the near friends of the de-  
ceased had waited the coming of Gilbert  
Sponsor of Springfield, for the purpose  
of identifying the man to whom he had  
sold the revolver. Mr. Sponsor in com-  
pany with State's Attorney Mills, Rev.  
D. F. Howe, C. M. Imboden and others  
went to the lecture room of the First M.  
E. church where the body rested in a cas-  
ket, the top thrown back, and viewed the  
remains. The doors were closed against  
the crowd that had gathered and Mr.  
Sponsor took a good look at the body.  
None spoke to him. He walked away  
from the casket and was questioned by  
Mr. Howe and Mr. Imboden. He said  
that the man who bought the revolver at  
his place on Monday was the Rev. James  
Miller, whose body he had just viewed in  
the casket. He was positive—he could  
not be mistaken. The identification was  
complete.

## Before the Jury.

From the church Mr. Sponsor went to  
the Bullard undertaking rooms where he  
testified before the jury. His evidence  
was as follows:

My name is Gilbert Sponsor and I am  
63 years old and have been living in  
Springfield for the past five years. My  
business is that of conducting a shooting  
gallery and gun store. I did have in  
stock a Smith & Wesson revolver, having  
bought it for Paul Berg, the man from  
whom I bought the gallery. In this sale  
I did not buy the weapon but it remained  
in the store as Berg's property and I was  
instructed to sell it for \$8 if I had a  
chance to do so. It was the only Smith  
& Wesson gun we had in the house. W.  
H. Underwood sold it to Berg during the  
state fair. I sold it on last Monday after-  
noon, Nov. 20, at about 4 o'clock or soon  
after. It was then beginning to get dark.  
I did not know my customer. He was an  
entire stranger to me. He appeared to be  
a medium sized man and had on a light  
weight overcoat and seemed to be a man  
50 or 55 years of age. He wore a short  
gray beard and had his hat pulled down  
over his eyes. I identified the body at  
the church as the identical man who  
bought the gun from me. After the deal  
had been closed and he had paid me I felt  
uneasy. There was something about him  
that caused mistrust and if I had had  
the pistol back I never could have  
sold it to him again. He seemed pale  
like, and nervous and in the course of our  
talk he said that he wanted the pistol to  
get rid of burglars. He came into the  
store and looked into the case, saw the  
revolver and asked if it was for sale. He  
was told that it was and said "let me see  
it." I gave him the pistol and he asked  
me if it was all right. I told him it cer-  
tainly was and that it was practically a  
new gun. Then he asked me if it was  
loaded and I told him no. He took the  
gun in his hand and snapped the hammer  
several times. He again asked me if I  
was certain that it was all right and my  
answer was in the affirmative. He then  
asked me the price and I said \$8. Hav-  
ing no 38-calibre shells I took the loads  
from my own pistol and slipped them in-  
to the chamber of this one. He laid down  
two \$5 bills and I gave him back two  
silver dollars. It was when I handed  
back the gun loaded that he said he wanted  
to get rid of burglars and he again  
asked me "now is it all right," and to  
which I again answered in the affirma-  
tive. He said, "I thank you," and turned  
away. As he was leaving he turned and  
said, "good bye." He had a worried look  
and after he had gone I turned to Berg  
who was in the store and said that there  
was something wrong with that man,  
that he had family trouble and that he  
did not seem to be in his right mind. I  
was sorry I had made the sale and said to  
Berg, "mark my words, we will hear from  
that pistol before many days." The man's  
voice seemed to trouble me and he  
looked very pale. He never questioned  
the price. If my memory is right he wore  
a white muffer about his neck, and I  
think that he carried a cane. (At this  
point the mackintosh worn by Rev. Miller  
was shown to the witness and he thought  
it was the same one or one like that worn  
by Rev. Miller when the sale was made.)  
He was positive about the coat having  
had a velvet collar. The pistol was like-  
wise shown the witness and identified as  
the one sold. Witness Sponsor said,  
"that's the gun all right and it's a beau-  
tiful one too." He thought it was about  
as good as the one that he carried and in  
order that the jury might form some opin-  
ion, he showed his own weapon, explain-  
ing that he sometimes had large sums of  
money and therefore was armed. At  
this point the witness digressed slightly  
and gave an experience of his own with  
footpads. Witness Sponsor then describ-

ed the cartridges with which the revolver  
sold to Rev. Miller had been loaded. He  
announced that they had been taken from  
his own pistol and that one of them hav-  
ing been in the chamber longer than the  
others was blacker and that he could re-  
cognize it for that reason. The cartridges  
taken from the pistol were then shown  
the witness and he promptly picked out  
the one he had specified.

## The Verdict.

After hearing the testimony of Lion  
Radelliff as to the location and character  
of the wound in Rev. Miller's forehead,  
the jury returned the following verdict:

We find that Rev. James Miller came to  
his death by a pistol shot fired by his own  
hand with suicidal intent, done at Decatur,  
on Nov. 20, 1896, about the hour of  
11 p. m.

## At Bloomington—\$5,000 Life Insurance.

Bloomington Leader: Mr. Miller car-  
ried a life insurance policy of \$5000 in the  
Knights Templar Indemnity of Chicago.  
Also he carried a Travelers' Accident In-  
surance policy for \$5000 which he pur-  
chased of Agent Crosthwaite of the Illi-  
nois Central at the depot in this city on  
Monday afternoon just before taking the  
train. Mr. Crosthwaite today stated that  
he never sold Mr. Miller a policy of this  
sort before but that Mr. Miller had fre-  
quently purchased insurance of this char-  
acter through Col. John Reed.

The accident policy cost 26 cents and is  
not good in case of intentional injuries in-  
flicted by the holder or any other person  
except by burglars and robbers. The in-  
surance held good from 1 p. m. on Mon-  
day until the same hour on Tuesday.  
Agent Crosthwaite telegraphed the Travel-  
ers' company about the tragedy on  
Tuesday. This is the first accident to the  
holder of any policy issued by Mr. Crosth-  
waite.

Mr. Bert Ayers of the implement firm  
of C. W. Dooley & Co., was in the depot  
when Rev. Miller purchased the ticket.

In an interview with a Leader man this  
morning Mr. Ayers said:

"I was standing by the ticket window  
when Mr. Miller came up. I sat down  
and noticed the transaction with Agent  
Crosthwaite. After securing the ticket  
Mr. Miller came and sat down by me.  
He placed the accident ticket in his pocket-  
book and put it in his inside vest pocket.  
I noticed that his hand trembled a  
good deal and I thought that he appeared  
to be ageing very fast. I said to myself  
that he was just throwing 25 cents away  
by buying that ticket. I saw Mr. Miller  
get on the train. He went into a rear  
couach while I entered the smoker and got  
off at Wapella."

The members of Grace M. E. church  
will feel the loss of their pastor very keenly.  
His sudden and tragic death will al-  
most paralyze for a time the energies of  
the church which had for years been di-  
rected by him. What will be done toward  
filling the vacant pulpit can only be a  
matter of conjecture as yet.

Bloomington Pantagraph As is al-  
ways the case there were stories about  
Wednesday that had no foundation in  
fact. One was to the effect that Mr. Mil-  
ler was financially embarrassed, and that  
the church owed him \$600 back salary.  
It is true that he was not overburdened  
with wealth, but it is not true that the  
church was in the strict sense of the  
terms, indebted to him. In the first place  
Mr. Miller, like most men of high intel-  
lectuality, placed very little value upon  
money for his own sake. He was a scholar  
and a thinker, and not gifted with the  
business faculty. When he left Decatur  
he was called to a church on the west side  
in Chicago. The church had sold its edifice  
to the Metropolitan "L" railroad and in-  
vested the proceeds in a lot on which it  
was proposed to erect a \$50,000 building.  
Rev. Mr. Miller was called as the pastor  
and preached there in a hall for six  
months during the world's fair year.  
The panic came and no progress was  
made in raising funds. In fact the  
church was unable to pay the pastor's sal-  
ary, and he gave up the charge. "About  
this time Grace M. E. church learned that  
he had returned to this conference and  
made an effort to secure him which was  
successful. The Chicago experience had  
been financially unfortunate, and Mr.  
Miller has suffered ever since that time as  
a result.

So far as Grace church is concerned  
there was practically no salary due the  
pastor. He was paid \$195 a month. The  
year begins on the first Sunday in Octo-  
ber, and at that time nothing was owing  
the pastor. Since then Mr. Miller has  
been paid various sums, and yesterday the  
books showed that less than \$50 was due.  
It is plain from this that there was noth-  
ing unsatisfactory in his relations with  
the church.

## How's This?

Mr. Miller at Springfield.  
Springfield Journal: The most dili-  
gent inquiry was made today by the Jour-  
nal representative to find some one who  
saw Mr. Miller while he was in Spring-  
field. Not a man was found to answer  
yes. He was not at any hotel in the city  
and despite the fact that he was here five  
hours from 4 o'clock to 9, it cannot be  
ascertained that he ate supper at any of  
the restaurants. One man came into the  
Journal office and declared he had seen  
Mr. Miller and knew him by sight. When  
asked to give his name he declined and it  
is believed the fellow is a crank. Not a  
man in the sheriff's office or connected  
therewith had seen or heard of anybody  
who was certain he had seen Mr. Miller.

**W. GUSHARD & CO.**  
DRY GOODS AND MILLINERY

Special Low Prices.  
Good Assortment.

The ladies are just as poorly informed.

Rev. Preston Wood, a long and intimate  
friend of the dead man, was nonplussed  
that Mr. Miller should have remained in  
the city without having called at his  
house as was his wont. He cannot ac-  
count for it.

It is a significant fact that the revolver  
was sold by Sponsor a few minutes after  
the Illinois Central train arrived. It  
should be added that Mr. Sponsor loaded  
the revolver for the purchaser.

If Mr. Miller, after disembarking from  
the train, had come up Fifth street to  
Jefferson and had looked west, he would  
have seen a large sign in bold letters at  
Sponsor's shop, the most prominent and  
striking part of which was the word  
"guns." To a man who might have been  
looking for a weapon this sign would nat-  
urally have impressed itself upon him.  
There is a clue in this to the probable  
reason why Mr. Miller changed his mind  
when he reached Clinton and came to this  
city instead of going on through to Decatur,  
the most natural thing to do. For some  
reason, which apparently developed  
after he left Bloomington, he altered his  
plans, and arrived in Decatur several  
hours later than he would have done had  
he gone straight through. More than  
that, he came to Springfield absolutely  
without a mission so far as any of his  
friends know. He kept apart from his  
Springfield fellow ministers, and without  
making his presence in the city known to  
anyone waited in seclusion for the train  
to Decatur. It is inexplicable to his  
friends here that he did not look at least  
one of them up and spend the time in  
congenial companionship instead of keep-  
ing himself in seclusion for five hours, a  
line of action so unlike what the dead  
man would be expected to follow out.  
The conclusion to which these thoughts  
lead is repugnant to Mr. Miller's Spring-  
field friends, but the awkward facts re-  
main to disturb them.

Hard coal all sizes, always in stock at market price. Up town office Irwin's drug store, office and yard 800 North Broadway, old phone 483, new phone 435. M. F. Metz.—21d-tf

## THANKSGIVING.

Union Religious Services at the Baptist Church.

SERMON BY THE REV. E. B. RANDLE.

Five Clergymen Assist in the Exercises

—Text of the Sermon—  
Collection Was

\$15.94.

The customary union Thanksgiving services were held in Decatur on Thursday and despite the rain the auditorium of the First Baptist church was nearly filled. The pastor, Rev. D. R. McGregor, directed the exercises and Rev. Mr. Randle, presiding elder of the Methodist church, delivered the sermon in place of Rev. D. E. Howe, who by his request had been excused. Excellent music was by the members of the Baptist and Presbyterian choirs.

The Exercises.  
The program was as follows:  
Invocation—Rev. J. C. Rapp.  
Scriptural Reading—Rev. W. F. Gilmore.

Prayer—Rev. Spayd.  
Sermon—Rev. E. B. Randle.  
Benediction—Rev. A. W. Hawkins.

At the close of the service the congregation joined in singing "My Country, 'Tis of Thee." The collection taken up for the poor amounted to \$15.94. Rev. Randle took for his text this passage:

"And Jesus answering, said, Were there not ten cleansed? But where are the nine?" Luke, xii:17.

These words were uttered by the Savior while he was on his way from Galilee to attend the feast of tabernacles. As he was approaching a certain village he met ten lepers, one of whom was a Samaritan. It may have been that the district was infested with leprosy; or these lepers may, on tidings of Christ's approach, have hastily gathered there. It was in strict accordance with Jewish law, that these lepers remain both outside the village and for fear Him to whom they now cried for mercy.

And, without other touch or even command of healing, Christ bade them go and show themselves as healed to the priest. They knew what the command meant, for no one was permitted to approach a priest who was not healed, and as they started away, they became conscious of a thrill of healthful life, and renewed energy streaming through their veins, and the disease separated from them. They had received an unasked-for benefit from the hands of Jesus. When they realized that they had been cleansed we would naturally think that they would return to thank their benefactor for such an indescribable blessing.

But is some that nine of the ten who received the benefit forgot to thank the benefactor. Only one, the Samaritan with whom the Jews would have no dealings, and whom they detested, showed natural gratitude, and came back and threw himself at the feet of Jesus, and expressed the gratitude of his heart for the deliverance from something worse than death.

"Were there not ten cleansed?" asked Christ; "where are the nine? The only one who has returned to give glory to God is this Samaritan, whom the Jews call a heathen, and an alien from Israel. Arise, go thy way, thy faith hath made thee whole."

One would have thought that they would have suffered no obstacle to hinder the Samaritan's gratitude which should have prompted them to hasten back at once, to make a desperate effort if need be, even through fire and flood to prostrate themselves with heartfelt acknowledgment at the Savior's feet, to thank him for so great a gift. But their selfishness and rational limitation and thanklessness as which was worse to the soul than the leprosy was to the body, prevented it. While the nine Jews were thankful, the one Samaritan turned back and with a loud voice glorified God, and fell down on his face at his feet, giving him thanks.

There may have been some discussion between the nine and the one, and they may have argued, "Let us go to our homes. We are only too thankful, and he will never miss us." Ingrate! Is not ingratitude among the most common of vices? Only one of these ten men had a sufficient sense of indebtedness to return to Christ to offer thanks. How many of you have gone out of your way to do a man a kindness and when you looked for his expression of gratitude you have been disappointed. How much more do many owe Christ than they think they do? Suppose we, subtract from the elevating and purifying influences which have made us what we are, how much is left?

All our mercies have come from Him. Every good and perfect gift has descended from the Father of mercies. These nine Jews would not have disputed their debt of gratitude had they been questioned, but they had been absent from their families and friends for some time and wanted to get back home again. They did not stay to consider.

Have we remained to consider what we owe to Him who has, at such an infinite price, made it possible for us to be saved? We are continually receiving favors from God? No creature is independent. These favors should induce a suitable return. We should acknowledge to God.

A venerable clergyman of Virginia lately said, "Men of my profession see much of the tragic side of life. Beside a death bed the secret passions, the hidden evil as well as the good in human nature, are very often dragged to the light. I have, said he, seen men die in battle, children, and young wives in their husband's arms, but no death ever seemed so pathetic to me as that of an old woman, a member of my church. I knew her first as a young girl, beautiful, gay, full of spirit and vigor.

## THANKSGIVING.

She married and had four children; her husband died and left her penniless. She taught school, she peddled, she sewed; she gave herself scarcely time to eat or sleep. Every thought was for her children, to educate them, to give them the same chance which their father would have given them. She succeeded; sent the boys to college and the girls to school. When they came home, pretty, refined girls, and strong young men, she was with all the new ideas and tastes of their time, she was a woman, commonplace old woman. They had their own pursuits and companions. She languished among them for two or three years and then died, of some sudden failure of the brain. The shock woke them to a consciousness of the truth. They hung over her as she lay unconscious in an agony of grief. The eldest son, as he held her in his arms, cried, "You have been a good mother to us." Her face colored again, her eyes kindled into a smile, and she whispered, "You never said so before, John." Then the light died out, and she was gone." Their ingratitude had killed her. How many men and women sacrifice their own hopes and ambitions, their strength, their life itself, to their children, who receive it as a matter of course, and begrudge a word of gratitude. In payment for all that has been given them. How mean it is in children to be the constant recipients of parental sacrifices and favors and to be totally indifferent. Yet how much more culpable is that indifference that receives the beautiful provision of Providence—His love, His mercy, His material benefits, and expresses no gratitude. How it must pain the heart of God.

"It is a good thing to give thanks unto the Lord, and to sing praises unto his name, O Most High; to show forth Thy loving kindness in the morning and Thy faithfulness every night." God is good when He gives, supremely good, not like when He denies. Happy are we if we understand how good it is to give thanks unto the Lord and to sing praises unto the name of the Most High.

Thanksgiving ought to be a time of general helpfulness to the poor and needy. One of the best expressions of gratitude is the opening of the liberal hand in supplying the needs of God's poor. I have no confidence in that gratitude that ends with mere words.

Occasions for thanksgiving are not waiting. Material benefits, although not the chief of our mercies, are not to be despised. A country surrounded by no other in beauty and grandeur and variety of scenery, in fertility of soil, in healthfulness of climate, in freedom of government and nobility of inhabitants, and a year of unusual productivity and prosperity, call for sincere gratitude. But material benefits are the smallest of our mercies. Schools, colleges, books and papers and other educational facilities, are within the reach of nearly all. Intellectual improvement and the accumulation of knowledge are nobler treasures than health and luxury. But we have a grander heritage still. The Lord is our God. We have a Bible and a Sabbath. We have Christian churches and philanthropic institutions. There are many honest and worthy poor people among us who, by misfortune have lost their possessions, or never had the ability to accumulate the good things of this world. To them the hands of the prosperous should open wide. But a great deal of the poverty which comes under our observation is the result of idleness and vice. With few exceptions the industrious and virtuous may have bread to eat and raiment to put on, and comfortable homes for their families.

### ACKNOWLEDGMENT.

Letter from the National Republican Committee, Chicago.

Office Republican National Committee, Chicago Headquarters, Nov. 17.—Editor Republican Decatur, Ill. Dear Sir: Now that the campaign for honest money, good government and our country's prosperity is over, and we have won an emphatic victory, we write to thank you in behalf not only of the national committee but of all good citizens for the faithful and efficient work you have performed. We thank you for your good work and the part you have taken in this campaign, and especially for the circulation of our supplements. The name of your newspaper has been recorded upon the records of this committee as entitled to high praise.

Wishing you success, we are,

Yours very truly,  
M. A. Hanna,  
Chas. Dick,  
Henry C. Payne,  
Charles G. Dawes,  
Winfield T. Durbin,  
Cyrus Leland, Jr.

Department Publication and Printing,  
Perry S. Heath,  
H. H. Rand.

High School.

At the meeting of the Sapphonian Wednesday afternoon officers were elected for the ensuing six weeks. President, Myrtle Flint; vice president, Mollie Grubel; secretary, E. Montgomery, treasurer, Gertrude Phillips, factotum, Estelle Williams, critic, Miss M. Gale; press reporter, M. Wade Wallace. The following program was given: Recitation, Edith Starr; piano solo, Irene Winkel; debate, "Resolved, that intoxicating beverages are more destructive to mankind than tobacco." For the affirmative Hopoe Paxton and Ora Crane; for the negative, T. C. Buxton. It was decided in favor of the negative.

Joint Debate.

Revere lodge No. 788 I. O. G. T., had a good meeting in their hall Thursday evening. They were addressed by T. C. Buxton, after which there was a strong debate on the question: "Resolved, that intoxicating beverages are more destructive to mankind than tobacco." For the affirmative Hopoe Paxton and Ora Crane; for the negative, T. C. Buxton. It was decided in favor of the negative.

The branch reports of the W. W. M. S. for 1895 and 1896 have arrived and any one wishing to procure a copy can do so at 553 North Franklin street at the usual price, 10 cents per copy. Mrs. E. H. Jeffers, Cor. Sec.

## KILLED BY A TRAIN.

Clarence Eberly Met With a Sad Fate Yesterday Morning.

TRIED TO JUMP ON THE CARS

While the Train Was Moving and Fell

Under the Wheels—The Boy was

Horribly Injured and Died

Two Hours Later.

Clarence Eberly, the oldest son of Mr. and Mrs. David L. Eberly, met with a fearful death yesterday morning. While attempting to jump on a freight train he was run over and horribly mangled and died two hours after.

Clarence and a boy friend, Arthur Wheeler, started out in the morning to pass the day hunting. They were east of the city at the Jasper street crossing when they decided to catch an east bound Wash freight train and ride to the country and jump off. Clarence was the first to get on the train. He put his gun on his shoulder and tried to jump on the front end of the train. Catching hold of the handle bar he swung himself up, but in doing so lost his balance and fell under the cars. The wheels passed over one leg close to the body. Eight cars crushed the limb. The accident happened before the eyes of several persons but it occurred so quickly that no one could avoid it. The boy was taken at once to the home of his parents, No. 812 North Edward street, and Dr. E. B. Walston was called to attend him. It was realized that he had been fatally injured and that nothing could be done to save him. Once he regained consciousness and said that he knew he could not live. He died shortly before 10 o'clock in the morning, having lived about two hours after the accident occurred.

Clarence was known by many persons in the city and was a boy who was highly respected. He was 17 years old and was a member of the graduating class of the high school. He was a particularly bright boy in his studies at school and unusually industrious. He carried papers for the Morning Review and in the summer time for several years past was employed as office boy by Dr. E. B. Walston. Every one with whom Clarence came in contact spoke of him as a boy of excellent traits of character. The accident was one of the saddest that has happened in the city for some time.

The funeral will be held Saturday afternoon at 2:30 from the Edward street Christian church. The senior class of the High school will attend in a body, as will also the Review carriers. The pall bearers will be Ben Hoffman, Bryant Vail, Ross Packard, Mack Weems, Lay Lipscomb and Arthur Wheeler. The honorary pall bearers will be Earl Morrill, Fred Bonfield, Forrest Fife, James Montgomery, Elmer Brininger and Hubert Wilkin.

Hickory.

The celebrated Hickory shoes are made with plenty of room over the toes. The soles which are one inch thick, project well beyond the uppers; stone cutters, draymen and coal haulers will appreciate this. They have a special leather counter cover in addition to a stout canvas lining and they have all the good qualities of a full leather lined shoe, without the discomfort of a clumsy top around the ankle. This shoe has a record for a long continued service than any shoe made one and two years not being uncommon. They are sold at the reasonable price of \$2 in congress and loco. Powers' shoe store, sole agent.—24 dlv

When You Buy Coal.

Keep in mind that the best coal in the market is Decatur coal. It is the hardest, makes more heat and lasts longer than any other soft coal. Every ton of it that you buy is just so much money kept right here in Decatur. The more of it you buy the more miners and teamsters we can employ. They spend their money in town and part of it must of necessity find its way to you. When you buy coal order Decatur coal. oct 8-dtf

Decatur Coal Co.

Fine Perfumes.

Fine perfumes at West's drug store. Prices this week only:

Palmer's Frankingini.	60c ounce
Queen Bees.	25c ounce
Grab Apple Blossom.	25c ounce

## PRICE'S CREAM BAKING POWDER

MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 40 Years the Standard.

Y. M. C. A. AT HOME.

Reception and Indoor Field Day at the Rooms.

Thanksgiving Day the annual reception and entertainment at the Y. M. C. A. rooms drew a large crowd. The program was as follows:

**First Part.**  
Vocal Duet—"Murmuring Sea," Messrs. Myra Carmany and Celeste Hoffman.  
Recitation—August Myers.  
Piano Duet—"Odeon," Messrs. Fred Mann and Fred Church.  
Song—Y. M. C. A. quartet, "Who Am I—Where was I—When Came I?"  
Guests.

**Second Part.**  
The second part of the program was given in the gymnasium and was the first indoor event of the kind ever given by the association. The spectators occupied all available room and seemed quite enthusiastic over the events, which were interesting and exciting.

There were four events with so many points for the winner of the event and the contest was to be won by the one who received the greatest number of points in the whole contest.

Charles Pennington won 109 points and first prize, a \$4 gold ring. Homer Erwin was a close second with 99 points to his credit. The prize was a silk necktie.

Erwin was first in the running high jump at 4 feet 8 inches, with Pennington second.

Erwin also took first in the bar vault at 5 feet 11 inches. In the standing broad jump Pennington was first in 9 feet 3 inches.

Erwin won the 120 yard potatoes race in 37 seconds.

Covington won third place in points.

The record made were said to be quite good by Physical Director Herbert S. Blair.

After the part of the entertainment was concluded refreshments were served by the ladies' central committee. The evening was most enjoyable one to all who were present and the association's reputation for pleasant Thanksgiving receptions was fully sustained.

#### SPLENDID BURIAL CASKETS.

Complete Line of New Goods Shown by P. Perl & Son.

The firm of P. Perl & Son, funeral directors in the old tabernacle, corner Prairie and North Main streets, have in stock one of the most complete lines of undertaking goods to be found in any similar establishment in the west. Mr. Perl personally selected the goods and invites inspection as to quality, style and price. He is now ready to furnish anything in the line of modern caskets to suit anybody, prices ranging from \$4 to \$1000 and upward. A splendid line of the finest caskets of cedar and chestnut, beautifully lined and draped, are in the chapel and all are so arranged that they can be easily shown to all who wish to see them. It will pay you to call at Perl & Son's establishment. One of the best caskets is "The State" with square corners. The firm has hearse and carriage service as good as any in the city.

NEWSPAPER REVIEW

# The MILLER LAMP!

LATEST AND BEST...

The Lamp Long Wished For.

Professional Tests Declare

The MILLER LAMP

the Steadiest, Whitest,

Largest Light in the Market

It's screw and plunge lift for regulating the wick, together with its lift attachment for lighting without removing the chimney, will win it immortality. It has no dirt pocket, therefore no bad smell. SEE CUT.

...FOR SALE BY...

Otto E. Curtis & Bro.,

156 EAST MAIN STREET.

None Equal to Hanan's

Oct. 5 dtf

Ringling Bros' circus trains passed  
through this city this morning, going  
north on the Illinois Central. The show  
has been playing in the south and was on  
the way home. There were three trains.

Ladies and children made dresses,  
cloaks and winter wraps nicely dyed  
cleaned and pressed—no ripping apart  
at Miller's Steam Dye House, 145  
North Main street.

The revival services in the Cumberland  
Presbyterian church will be continued  
next week. Rev. F. B. McAnis will do  
the preaching. Services beginning at  
7:30 each evening.

A present with every pair of school  
shoes at Philpott's,  
F. L. Stevenson, Assignee

Oct 5 dtf

There was a report in circulation last  
night that a man had been killed by a  
train on the Illinois Central railroad,  
south of the city. The police made a  
run to the point with the patrol wagon  
and found that the victim of the acci-  
dent was a mangled mule.

The editor of the Arena, writes for  
the Flower, has in the Dec. one demand  
that review a very interesting gathering  
the late William Morris' park. It is risky,  
of Morris' life are mud Indians still keep  
distinct, and the two of their dead, and  
each other—the earlier it would mean a  
the "idle slayer of an aged by a death  
the later years when he had a quarter or more  
to the measure of the st. Still know-  
grown man, and his wife, a recluse,  
were busy with the all-absorbing gather these  
problem Morris was a still, and every  
alley and we are given a very small  
of it in this delightful paper (Portland, Ore.,  
its of medical the east.—Sun

"Augustinebraun M.

This is said to be the best  
in the world and has a wide lead.

M. Steinbach, at the experiments  
on the "dis-  
business on Merchant street. The professor  
collected an importation of, that gold,  
brewery. Call and sample will diffuse its
